PROFESSIONAL SUMMARY

Full-Stack Developer and AI-Augmented Engineer with 3+ years shipping production marketplaces, SaaS platforms, and web applications. Delivered systems serving 12,400+ users with 1.8M AED/month in transaction volume across 26+ client deployments. Proficient in Python, JavaScript, Next.js, React, Java, and SQL. Expert-level use of AI development tools: Claude, Claude Code, ChatGPT, Gemini, GitHub Copilot. Fluent English and Arabic. Seeking full-time and freelance opportunities in UAE and remotely.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, HTML5, CSS3, SQL, PHP

Frameworks: React, Next.js, Node.js, Tailwind CSS, Java Swing, Tkinter

Tools: Git, GitHub, Figma, REST APIs, JSON, Formspre

AI Tools: Claude, Claude Code, ChatGPT, Gemini, Grok, GitHub Copilot, Cursor

Specialties: Marketplace development, SaaS dashboards, multi-role systems, payment integration, bilingual EN/AR web apps, admin panels, UI/UX design

EXPERIENCE

Full-Stack Developer & IT Lead

Jan 2024 – Present

Deluxe Lubricants International · Dubai, UAE

- Built and deployed deluxelube.com — a production product platform serving customers across 50+ countries
- Developed full admin CMS enabling product management, catalog control, and customer tracking
- Improved website performance by 20%; resolved 50+ technical issues monthly

Freelance Full-Stack Developer

2022 – Present

Self-Employed · Dubai, UAE

- Designed and shipped CarzUAE (carzuae.app) — verified UAE vehicle marketplace with 12,400+ users, dealer subscription tiers, car history reports, and WhatsApp integration, built on Next.js/React
- Built Designers Puzzle (designerspuzzle.com) — multi-role design services marketplace with escrow payments, 2,347+ verified reviews (4.8/5 rating), and 1.8M AED/month transaction volume
- Delivered 26+ production websites for UAE restaurants across Dubai and Sharjah — all bilingual (EN/AR) with admin dashboards and menu management systems
- Leveraged AI tools (Claude Code, ChatGPT, GitHub Copilot) to accelerate delivery, shipping full platforms in 7–10 days

EDUCATION

B.Sc. Computer Science — Artificial Intelligence

Sep 2023 – 2027 (Expected)

The British University in Dubai · GPA: 3.7/4.0

Focus: AI, Machine Learning, Web Development, Database Systems

ACADEMIC PROJECTS

School Management System

BUID Coursework

- Built a full-featured academic management system in Java using OOP design patterns (inheritance, polymorphism, encapsulation)
- Multi-role system with admin, teacher, and student interfaces; grade tracking, timetable scheduling, and report generation
- Relational database backend with JDBC integration and Java Swing GUI

Database Systems Design

BUID Coursework

- Designed and implemented normalized relational database schemas (3NF/BCNF) for real-world scenarios
- Covered ER modeling, SQL query optimization, stored procedures, indexing, and transaction management

CERTIFICATIONS & LEARNING

In Progress (2026): AI & Machine Learning, Cloud Computing, Data Science — actively completing professional certifications across major online platforms

Applied Learning: Daily professional use of Claude Code, ChatGPT, Gemini, GitHub Copilot, and Cursor — expertise built through shipping 3 production platforms and 26+ client websites
